60 SECONDS TOUGH TALK

Your Monthly **BUSINESS** - **LINKEDIN** Advice

DR. MARK D. YATES

60 SECONDS TOUGH BUSINESS TALK

With over 530 million business interested members world-wide, LinkedIn is the largest and most fertile 'business hunting ground' on planet earth.

If you've invested in developing your own LinkedIn profile and you utilize LinkedIn, but have not yet generated any sustainable revenue, or profitable business growth, then you are FAILING to leverage your Investment...

So, Stop Bitching & Start Pitching

Many LinkedIn Gurus advise their clients to never pitch for business on LinkedIn....

It's no doubt voiced by some self-appointed LinkedIn gurus who, have never personally found a way to fully capitalize on the LinkedIn platform themselves.

Think About This

Over 50% of LinkedIn members are considered business decision makers and 90% household decision makers. Fortunately, they are all hanging out around the same 'LinkedIn Water Cooler,' so you don't have to travel to visit them individually.

As business decision makers they have an expectation of being approached and pitched to, providing it's done professionally.

I've lost count of the number of people who've contacted me complaining that they are unable to find a way to leverage LinkedIn for profitable business growth, and/or to identify new revenue generation streams.

As a frank and direct communicator, this is my response to them.

Stop Bitching & Start Pitching

If you don't know how to pitch professionally on LinkedIn, then you need to retain a LinkedIn business growth expert to help you grow your business.

Why?

Because everything and everyone you need to grow your business exists on LinkedIn. Most business owners just need a little help and support to leverage this phenomenal business networking organisation.

THIS MONTH'S QUESTION FOR DR. MARK D. YATES THE LINKEDIN EXPERT'S EXPERT

Question : Mark. My business is struggling to generate revenue from LinkedIn. We know our competitors are leveraging LinkedIn, but we don't know what to do, and we don't have the time to do anything. Our marketing team blames our failure to capitalise on the constant changes and updates to LinkedIn. They say they can't keep ahead of these changes. What can we do?

Answer : There are only two ways business owners can monetise LinkedIn.

- 1] The right way.
- 2] The wrong way.

Unfortunately most LinkedIn members fit into the #2 camp, 'the wrong way'. In my experience this is usually because most business owners don't know, what they don't know about monetising LinkedIn.

The first step in monetising LinkedIn is to recognise your limitations. If you, or your marketing team are not 'advanced skilled' at LinkedIn, then retain someone who is. This is simply a tax-deductible marketing expense for your business, just like any other service you pay for. But, make sure this person can work with you and/or your business team.

As to the constant LinkedIn changes and frequent updates to their platform. Your marketing team should consider this as a massive positive for your business, rather than a negative. The good news is most of LinkedIn's changes and upgrades are published in advance.

For example, one of the most significant new changes due to come from LinkedIn in the second or third quarter of 2018, is a new service for business members to place video advertisements on the LinkedIn platform. This update will be first adopted by a small selective number of clients and then will be rolled out across the entire membership after the initial trial period.

This gives you and your business plenty of time to prepare your short inexpensive

product or service promotional video.

I hope this helps.
